What each phase means

Rising phase

Saturn transits the 12th sign from your Moon. Traditionally linked with rising expenses, travel, sleep and the need to let go of what no longer works. It is a good time to plan, simplify and save.

Peak phase

Saturn transits your Moon sign itself. Tradition associates this with heavier responsibility and emotional pressure, and also with maturity and lasting achievements built through steady effort.

Setting phase

Saturn transits the 2nd sign from your Moon. Traditionally linked with family finances, speech and consolidation. Lessons of the earlier phases settle into practical stability.

Your natal Saturn is own sign in your 7th house, aspecting your 1st, 4th, 9th houses. A mature, loyal or older partner; commitment deepens over time. Patience in relationships pays off. Tradition holds that Sade Sati tends to feel lighter when natal Saturn is well placed or when it is a functional benefic for the ascendant.
